

## Real-time contact management for your mobile sales force

### Increase remote sales productivity with GoldMine® Mobile Edition

GoldMine Mobile Edition turns your mobile device into a powerful contact management tool, complementing GoldMine® in the quest to generate leads, tighten sales cycles and maximize ROI. Unlike other applications of its type, GoldMine Mobile Edition delivers real-time data. No syncing is required, and no memory on your mobile device is used, regardless of the amount of data you receive. It means that GoldMine Mobile Edition has an edge over the competition so you have an edge in the field.

### Benefits you can measure

With GoldMine Mobile Edition on your mobile device, positive changes in your daily operations are immediate.

- **Quicker closing:** Cut process times with fast access to information at the point of sale.
- **Efficiency:** Stay on top of your calendar via instantly updated views of all activities in your pipeline, refining your work flow processes.
- **Real-time data:** No syncing required. Moving information through one centralized database means no delays in receiving updates, and no information lost.

Wherever you go,  
customer  
information follows.

### Performance improved, profits increased

GoldMine Mobile Edition rapidly alters the dynamic of life in the field.

- **Increased opportunity:** Through tight tracking of leads, expose vertical and lateral prospects for new revenue streams.
- **Easy scheduling:** Organize your day with the calendar feature.
- **Contacts at your fingertips:** Get real-time access to key customer information—anytime, anywhere.

### Stay ahead of the pack

Like its desktop sibling, GoldMine Mobile Edition has a wealth of features that give you an edge.

- **Customized drop-down lists:** Entering, organizing and keeping track of contact information is simple.
- **E-mail:** Access existing e-mail messages that are linked to your contact records.
- **Task view menu:** See all your calls, meetings and to-do entries. In addition, choose your views by day, week or month.
- **Extensive logging capabilities:** Time-stamp notes from phone conversations and meetings, then organize them for maximum reference power.
- **Pipeline:** GoldMine Mobile Edition provides increased control and visibility of your sales queue and a "live" picture of activity as it happens on the front lines.

### There's no time to waste

By employing the one-two punch of GoldMine Mobile Edition and GoldMine® Corporate Edition, you keep your sales engine humming, expanding leads, increasing collaboration and maximizing opportunity. An integral element of the FrontRange suite of solutions, and deployable on any WAP/GPRS handheld device, GoldMine Mobile Edition works in synergy with the award-winning HEAT® help desk manager, creating comprehensive service management that directly impacts your bottom line.

***"With GoldMine as the backbone of our business in all departments, we have driven enormous cost savings by eliminating redundancies and creating automation."***

—James Kernan  
President and CEO, Networks Plus Technology Group

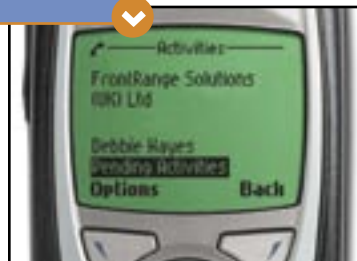

***"While the ability to collect and analyze data is important to us, the real beauty of GoldMine is its ability to help the sales staff be more productive and therefore more successful."***

—Monica Quigley  
Vice President of Sales and Marketing, Leyland Alliance, LLC

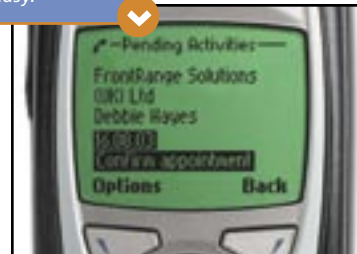

Access all your contacts, all the time.

Stay on top of your schedule.

GoldMine Mobile Edition makes managing your activities easy.
